

**Works Better.  
Lasts Longer.  
Costs Less.**

**DISPOSABLES**

**NEW PRODUCT**

**“Works Better”**

Patient comfort is the number one goal of these sensor sleeves and that is achieved with a softer, snugger fitting sleeve, with no extra material in the patients mouth.

**“Lasts Longer”**

The thicker material will reduce tearing and the need for replacement making these sleeves a real time saver.

**“Costs Less”**

The strong material and the comfortable design provide great patient acceptance and cost savings.

## Fitted Digital Sensor Sleeves

These disposable "fitted" digital sensor sleeves help prevent cross contamination. They are twice the thickness of conventional digital sensor sleeves to reduce tearing and the soft rounded edges fit the sensor snugly to help maintain position while providing increased patient comfort. The large opening and the simple tear-away design make loading and unloading a snap. Latex free.
