DISPOSABLES

NEW PRODUCT

“Works Better”

The 4-PLY design provides better patient protection than the standard patient towels on the market and gives the clinician a sense of security.

“Lasts Longer”

The reinforced edges provide strength while the outer design allows for the ultimate in patient comfort.

“Costs Less”

Can be compared to the "private" branded items and will still provide more safety and durability at a more economical price.

Patient Towels – 4-PLY (3-Ply Tissue/1-Ply Poly)

The unique technique used to bond the layers of tissue and poly securely together eliminates separation of the layers and the reinforced edges provide added strength and durability. These patient towels provide an excellent moisture barrier and quick absorbency. New 3-PLY tissue and 1-PLY provides the ultimate in patient protection and comfort. 13" x 18".
